Join pioneering small ship expedition cruise company Heritage Expeditions on a thrilling in-depth exploration of Australia's world-famous Kimberley Coast, one of the world's most pristine and untouched wildernesses, aboard our luxurious, 140-guest expedition ship *Heritage Adventurer*.

Forged by nature and spanning more than 400,000 square kilometres, Western Australia's wild and remote coastline marries a treasure trove of towering, fractured iron-tinged red cliffs, torrential waterfalls, azure waters, hidden coves and caves, secluded white sand beaches, magnificent reefs and rare and endangered wildlife with indigenous customs and connections to an ancient land, and rich history.

Best explored by expedition vessel, our Kimberley cruises allow an up close and intimate exploration and immersion of this rugged wilderness dwarfed by nature on an unfathomable scale. Highlights of our voyage include the unforgettable spectacle of King George Falls cascading 80-metres down 2,000 million-year-old towering cliffs, the outdoor galleries showcasing the

ancient Aboriginal rock art of the Gwion Gwion and Wandjina people, World War II relics, early explorer history and an optional helicopter excursion to Mitchell Falls.

At Talbot Bay we will experience the power of the region's massive tidal movements and the world's only Horizontal Falls described by David Attenborough as "one of the greatest wonders of the natural world", and marvel as the world's largest inshore reef system at nearby Montgomery Reef 'rises' out of the water with the falling tide.

Hidden among jagged sandstone monoliths, the final resting place of the remarkably preserved skeleton of a WWII Douglas DC-3 Aircraft awaits discovery at Vansittart Bay, while a glimpse into Australian colonial history can be found carved into the trunk of the centuries old Mermaid Boab Tree at Careening Bay.

Enjoy astounding wildlife encounters and observations from the region's iconic saltwater crocodiles through to the birding paradise of the Lacepede Islands and one of the world's largest and most pristine mangrove systems along the Hunter River home to White-bellied Sea Eagle, Osprey, Red-headed Honeyeater, Blue-spotted Mudskippers, Fiddler Crabs and more.

Discover an ancient landscape like no other as we expedition cruise the untouched beauty of Australia's iconic Kimberley and experience the truly epic scale of this magnificent region by ship and Zodiac on this unforgettable Australian adventure.

ITINERARY

Day 1: Darwin

Join *Heritage Adventurer* this afternoon at Darwin Port, Australia's 'northern gateway' famous for its glittering harbour, World War II history and enviable tropical lifestyle. The captain and expedition team will be waiting to greet you on arrival and show you to your cabin. You will have time to settle in and familiarise yourself with the ship; we will also take the opportunity to introduce you to your expedition team and our voyage plans. You are invited to join the expedition team in the Observation Lounge and up on the Observation Deck as we set sail for the Kimberley. Note: some voyages operate in reverse.

Day 2: King George River

Our approach to King George River gorge is not to be missed and best experienced out on the Observation Deck as the towering 2,000 million-year-old Warton sandstone cliffs dwarf our vessel. Navigating this scenic stretch of water by Zodiac there's much to take in passing the ever-changing eroded rockfaces as we cruise deeper into the gorge marvelling at the untouched beauty of this iconic waterway. As we reach the end of the gorge nothing will prepare you for the grand scale spectacle of the Kimberley's highest single-drop falls as the King George River plummets 80 metres over the edge of towering ancient red sandstone

cliffs into tidal waters. Undoubtedly one of Australia's most awe-inspiring natural wonders, the twin falls known as male and female Rainbow Serpents or Wunkurr by the Balangarra people, are fed by wet season rains and rightly hold a special place in indigenous lore. While here we will learn about how this natural wonder was created and enjoy a closer look.

Day 3: Vansittart Bay

Beautiful islands, pristine white beaches lapped by turquoise waters, secluded coves and stunning scenery abound in Vansittart Bay which is also the location of a historical World War II site and incredible ancient Aboriginal rock art. Named after the Chancellor of Exchequer by early explorer Rear Admiral Philip Parker King, this striking, naturally protected bay is framed by scattered jagged sandstone monoliths and the final resting

place of the preserved skeleton of a WWII Douglas DC-3 Aircraft which crash landed onto the saltpan after running out of fuel during a mercy mission to evacuate four Dutch citizens from Java. On Jar Island, the location of ancient outdoor Aboriginal Gwion Gwion art galleries set among fascinating caves and rock formations, much of the rock art tucked under ledges and featured on cave walls is estimated to be up to 40,000 years old and remarkably preserved, protected from the elements. The island is also home to some interesting flora and fauna including the Golden-backed Tree Rat, echidnas and birdlife. Discover a bounty of anthropological and historical wonders in Vansittart Bay.

Day 4: Ashmore Reef

Closer to Indonesia than mainland Australia, Ashmore Reef is Australia's most remote marine park. Its three tropical islands are surrounded by coral reefs and home to more than 500 species of fish, 225 reef-building coral species and 100,000 nesting sea birds. A designated important bird area (IBA) and mostly Sanctuary Zoned, access to Ashmore Reef is strictly controlled. Our visit is in compliance with Australian Government regulations, however there may be an opportunity for a Zodiac cruise near West Island.

© Cathy Finch

Day 5: Bigge Island & Careening Bay

Today we explore the sites of ancient Aboriginal rock art on Bigge Island and the historic Mermaid Boab Tree, which bears the name of the *HMC Mermaid* which was famously carved into it while the ship was beached there undergoing emergency repairs during Philip Parker King's third voyage of discovery of the region in 1820. Now measuring some 3 metres wide and National Heritage listed, the tree offers a glimpse into Australian colonial history, while an old Makassan Islamic prayer alcove can be found behind the tree. While here we will also explore the jaw-slackening, otherworldly sandstone coastline of York Sound with its incredible sea caves and fascinating wildlife.

Day 6: Swift Bay

Our intrepid Kimberley voyage sees us today navigating the scattered islands, known as the Bonaparte Archipelago, which stretching almost 150 kilometres along the dramatic coastline. Our destination today is the remote and unspoiled inlet of T-shaped Swift Bay with its sandy beaches, ominous sea-worn

© Jessa Thurman

caves and mangroves. A Zodiac cruise here allows a closer look at this incredible coastline where we will also likely observe salt-water crocodiles. On land a number of rock art galleries display the unique Wandjina and Gwion Gwion styles on a large scale, denoting the region's cultural importance.

Day 7: Hunter River

During our explorations of the Hunter River today it will quickly become apparent why this winding, 30-kilometre stretch of water is widely considered to be one of the highlights of the

Kimberley coast. Tucked into the north-east corner of Prince Frederick Harbour, an enormous bay which puts the Kimberley's epic scale into perspective, this scenic wonderland is dotted with islands and flanked with wildlife-filled mangrove-lined rivers, savanna woodlands and patches of lush monsoon rainforest, courtesy of receiving the lion's share of the region's rainfall, and soaring red cliffs. At the river's mouth the unrestrained grandeur of 200-metre-high sandstone escarpment Kampamantiya keeps silent sentry, welcoming us into this otherworldly realm we will be exploring today. Fed by two 90-metre waterfalls, the Hunter and the Donkin, Hunter River is home to one of the largest and most pristine mangrove systems in the world. Zodiac cruising the coastline could see us spotting diverse wildlife including White-bellied Sea Eagles, Osprey, Great-billed Heron, Eastern Reef Egrets, Red-headed Honeyeater, Blue-spotted Mudskippers, Fiddler Crabs and more. While here we will also explore Naturaliste Island/Wunumpurramarra and its remarkable, 300-metre-long beach strewn with marine snail shells. There is also the opportunity to experience the grandeur of the iconic Mitchell Falls on a thrilling

© Heritage Expeditions

scenic heli-flight (optional extra). This is the only way to experience Kimberley's famous four-tiered falls and includes a landing on the stunning Mitchell Plateau, one of the most scenic and biologically important areas in Australia. Here we will explore this incredible sandstone landscape carved by the Mitchell River.

Days 8 & 9: Collier Bay

Located at the eastern end of the Buccaneer Archipelago, and only accessible by sea, we have two days to explore the ancient land-and sea-scapes of Collier Bay and its astounding natural attractions. At Talbot Bay we will experience the power of the region's massive tidal movements which have shaped the landscape, most famously at the world's only Horizontal Falls. Here we will witness what David Attenborough described as "one of the greatest wonders of the natural world" as trapped water in an inland bay thunders between two narrow chasms as the tide drops more than 14 metres on the other side creating spectacular falls, whirlpools and boiling white water. At nearby Cyclone Creek we will explore the twisted geological folds of the ancient seabed and hope to see the inquisitive Tawny Nurse Sharks among the incredible marine life on display, while another tidal spectacle awaits at Montgomery

Reef at the bay's centre. The world's largest inshore reef system, we hope to capture the magic of observing this enormous reef 'rise' from the ocean as the tide falls creating torrents and waterfalls up to 3-metres high, and displacing marine life igniting a feeding frenzy as predators above and below the water descend. At Freshwater Cove shoreline explorations of the caves and grottos reveal a multitude of ancient rock art galleries.

Day 10: Lacepede Islands

Today we explore the incredible wildlife reserve and birding paradise of the Lacepede Islands. Designated a nature reserve in 1970 and rat free since 1986, this collection of four unassuming islands off the north-west coast of Western Australia are recognised as an Important Bird Area by BirdLife International with what is thought to be the largest breeding colony of Brown Boobies, up to 18,000 pairs, in the world. These small, low-lying spits of coarse sand and coral rubble atop a platform reef are also the state's most important breeding grounds for Green Turtles. Other wildlife which call these remarkable islands home include Roseate Terns, Masked Boobies, Australian Pelicans, Bridled, Crested and Lesser Crested Terns, Eastern Reef Egrets, Lesser Frigatebirds, and Pied and Sooty Oystercatchers,

© Cathy Finch

while Grey-tailed Tattlers, Whimbrels, Bar-Tailed Godwits, Ruddy Turnstones and Great Knots are among the visiting vagrant species. While landings are not permitted, we plan to explore the islands' incredible shores by Zodiac and, if lucky, we may also see some Humpback Whales which frequent this coastline during their northern migration in winter and early spring.

Day 11: Broome

This morning we arrive in Broome, a former wild frontier now relaxed tropical beach resort and gateway to the Kimberley. After breakfast there will be a complimentary coach to a central hotel or to Broome International Airport. To allow time for disembarkation procedures and travel from Broome, we do not recommend booking flights departing before 1300 hours.

During our voyage circumstances may make it necessary or desirable to deviate from the proposed itinerary. This can include poor weather and opportunities for making unplanned excursions. Your Expedition Leader will keep you fully informed. Please note: Voyages are planned and scheduled pending final regulatory approval.

HERITAGE ADVENTURER

Heritage Adventurer is a true pioneering expedition vessel of exceptional pedigree often referred to as the 'Grande Dame of Expedition Cruising'.

Purpose built for adventure in 1991 at Finland's Rauma shipyard and specifically designed for Polar exploration, *Heritage Adventurer* (formerly known as *MS Hanseatic*) is 124-metres long, boasts the highest passenger-ship ice-class rating (1A Super) and an impressive history of Polar and remote region exploration making her perfect for *Heritage Expeditions* signature experiential expedition travel.

Originally designed to accommodate 184 guests, we now welcome just 140 expeditioners to create a spacious, comfortable on board experience and continuation of the exceptional, personalised expedition experience synonymous with the company. While a fleet of 14 Zodiacs ensures

all guests are able to maximise their expedition experience. On board, enjoy stylish, sophisticated accommodations spanning 4 decks, visit the captain and crew in the Bridge with our Open Bridge Policy and dine on gourmet fare from leading chefs.

Watch your adventure unfold from numerous spectacular indoor and outdoor viewing locations including *Heritage Adventurer's* famed Observation Lounge resplendent with 270-degree views and join our world-renowned team of naturalists, botanists, historians and experts as they interpret the natural and human history discovered during each voyage, as well as hosting regular lectures.

And should you require a little R&R, unwind in the library, pool, gym, hot tub, sauna and steam room, indulge in some retail therapy or find a quiet place to enjoy a coffee or cocktail from the café and bar.

PRICES GBP£

Heritage Suite £11,500 pp*
Located on Deck 6, Heritage Suites are an expansive 44m² and feature large double panoramic windows, king bed, large living area with a sofa, coffee table and chairs and grand marble bathroom with a double basin, bathtub and shower, large writing desk, floor to ceiling cabinetry for storage and a flat screen entertainment system.

Worsley Suite £8,250 pp*
Located on Deck 6, Worsley Suites are a spacious 22m² and feature large panoramic windows, king or two single beds, comfortable chaise-style lounge suite, writing desk, private en-suite with shower, ample storage and a flat screen entertainment system.

Superior Single £8,995 pp*
Superior Single Cabins on Deck 5 are a spacious 22m² and feature large panoramic windows, king bed, comfortable lounge, writing desk, private en-suite with shower, ample storage and a flat screen entertainment system.

Superior Triple £5,750 pp*
Superior Triple Cabins on Deck 5 are a spacious 22m² and feature large panoramic windows, two single beds and one Pullman bed which folds down from the wall, comfortable lounge, writing desk, private en-suite with shower, ample storage and a flat screen entertainment system.

Superior Deck 5 £6,995 pp*
Superior Cabins on Deck 5 are a spacious 22m² and feature large panoramic windows, king or two single beds, comfortable lounge, writing desk, private en-suite with shower, ample storage and a flat screen entertainment system.

Superior Deck 4 £6,795 pp*
Superior Cabins on Deck 4 are a spacious 22m² and feature large panoramic windows, king or two single beds, comfortable lounge, writing desk, private en-suite with shower, ample storage and a flat screen entertainment system.

Main Deck Single £8,850 pp*
Main Deck Single Cabins on Deck 3 are a spacious 22m² and feature two porthole windows, king bed, comfortable lounge, writing desk, private en-suite with shower, ample storage and a flat screen entertainment system.

Main Deck Triple £5,350 pp*
Main Deck Triple Cabins on Deck 3 are a spacious 22m² and feature two porthole windows, two single beds and one Pullman bed which folds down from the wall, comfortable lounge, writing desk, private en-suite with shower, ample storage and a flat screen entertainment system.

* The price listed includes the discovery fund local payment of GBP£300 (All prices are per person in GBP£).

OPTIONAL EXCURSION

Mitchell Falls Helicopter Flight £425 pp
**Based on 2024 price, subject to change.

PRICE INCLUDES

Landing fees, post cruise transfers, all on board ship accommodation with meals, house beer, wine and soft drinks with lunch and dinner and all expedition shore excursions. Programme of lectures by noted naturalists.

PRICE EXCLUDES

All items of a personal nature, laundry, drinks, gratuities, international/domestic flights, helicopter excursion, visas and travel insurance.
